The most important aspect of manufacturing enterprises is the **“Craftsman Spirit”**, that's why our company is named **“JIANGXIN”**, which means **INGENUITY**.

“Craftsman Spirit” can be understood as a long-term persistence and adherence.

The dependable and excelsior **craftsmen** who are keen on innovation and invention have been a kind of important power for promoting scientific and technological progress in the world.

Create Intelligent Jiangxin Hydraulics

Assist the World Transmission Efficiency

ABOUT US

Established in 2011, Jiangxin Hydraulics is located in National Green Manufacturing Industrial Park Meishan China. The company is a national high-tech enterprise which is specializing in R&D, design, manufacturing and sales of hydraulic cylinder, hydraulic pump station, high pressure fuel pipe and related parts.

Jiangxin Hydraulics' products are widely applied to 6 major fields (warehouse logistics, construction machinery, aerial work platform, agricultural machinery, sanitation machinery, vehicle lift) and have won the trust and support of customers at home and abroad. The company has the top sales of the hydraulic cylinder by using in electric pallet trucks.

EQUIPMENTS

2024 is the year of beginning of digital factory. After a huge investment, the creation of fully automated production lines, intelligent of Jiangxin, and the declaration of the "high quality service" has started. The company will always follow to "Create Ingenuity, Cultivate Craftsmen, Cast the Craftsman Products" to stay true, with the spirit of craftsmanship for the hydraulic industry to make the excellent contributions.

WAREHOUSE
LOGISTICS
SERIES

- The hydraulic cylinders we specialize in OEM productions between 1-16 tons, such as: material Handling truck, stacking truck, forklift truck, large forklift truck, AGV and other full series of storage and logistics hydraulic cylinder
- Jiangxin Hydraulics is the top sales of the hydraulic cylinder by using in warehouse logistics series area, and also is the national standard setting institution
- Strong R&D capability and superior process technologies according to customer requirements

HYDRAULICS:

Lifting
Cylinder

Boosting
Cylinder

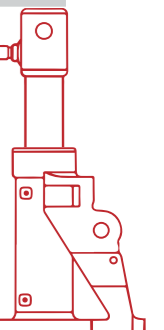

Tilting
Cylinder

Steering
Cylinder

Reach
Cylinder

Warehouse Logistics Series	Products	Capacity (T)	Bore Diameter (mm)	Rod Diameter (mm)	Working Pressure (mpa)
	Tilting Cylinder	1-16	40-130	35-50	10-25
	Lifting Cylinder	1-16	35-90	20-80	12-25
	Steering Cylinder	1-16	40-115	28-60	9-16
	Reach Cylinder	1-16	40-100	28-50	9-16

(Customizable according to customer requirements)

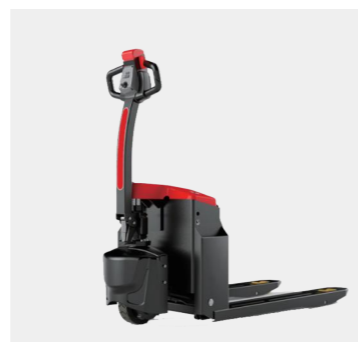

ELECTRIC FORKLIFTS

- Tilting Cylinder
- Lifting Cylinder
- Steering Cylinder

ELECTRIC STACKERS

- Lifting Cylinder
- Boosting Cylinder
- Reach Cylinder
- Tilting Cylinder

ELECTRIC PALLET TRUCKS

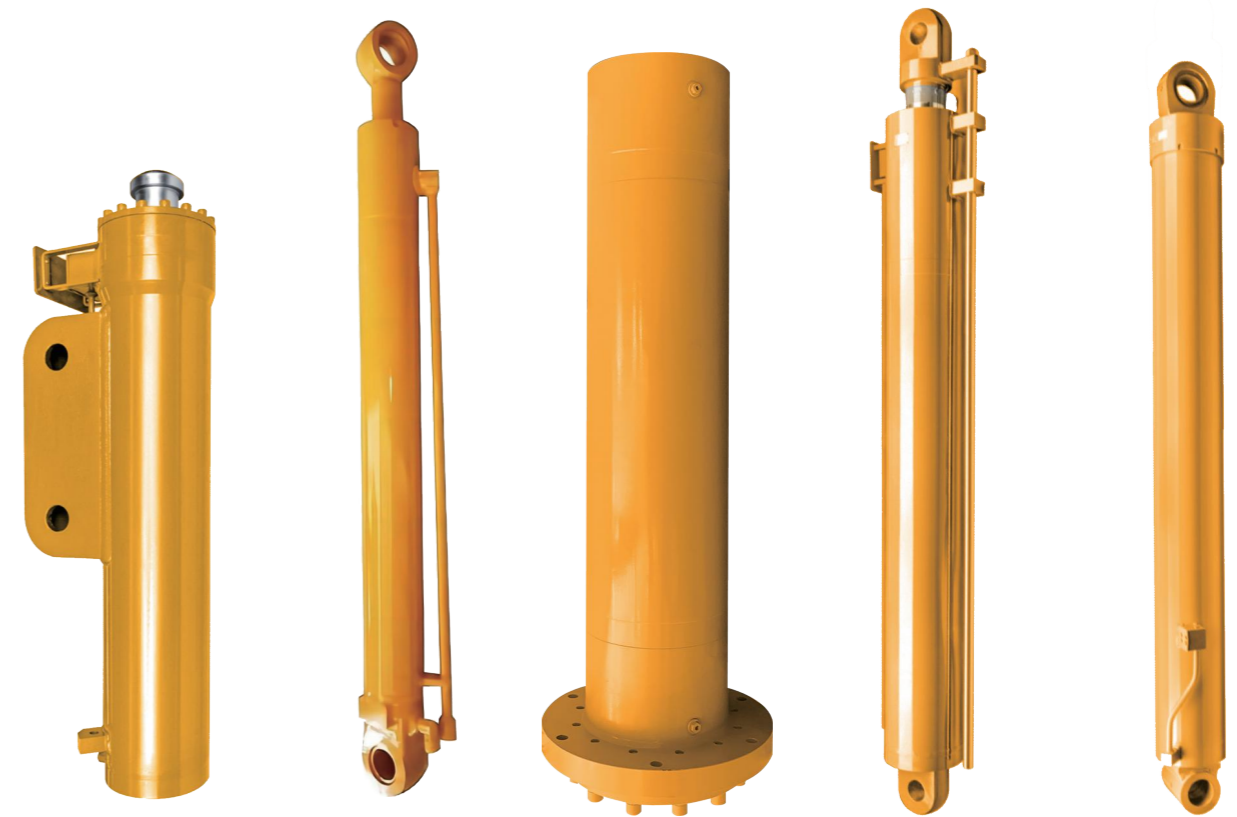

- Lifting Cylinder
- Boosting Cylinder

CONSTRUCTION
MACHINERY
SERIES

- The design temperature range is wide(-40°C~+120°C),to meet a variety of temperature environment
- Piston rod surface >720h salt spray test requirements,spraying parts to meet the C4H anticorrosion class,special surface technology to ensure extreme environment anticorrosion requirements
- Specially designed sealing system,to meet the adverse working conditions,and ensure that the hydraulic cylinders have excellent dust-proof and sealing performance

HYDRAULICS:

Leveling
Cylinder

Bucket
Cylinder

Power Pin
Cylinder

Lifting
Cylinder

Luffing
Cylinder

CRANE TRUCKS

- Luffing Cylinder
- Leveling Cylinder
- Outrigger Cylinder
- Counterweight Cylinder
- Steering Cylinder

CRAWLER CRANES

- Outrigger Cylinder
- Lifting Cylinder
- Pin Cylinder
- Spring Cylinder

EXCAVATORS

- Bucket Cylinder
- Boom Cylinder
- Stick Cylinder
- Tightening Cylinder

	Products	Capacity (T)	Bore Diameter (mm)	Rod Diameter (mm)	Working Pressure (mpa)
Construction Machinery Series	Leveling Cylinder	2-40	50-90	30-50	16-25
	Vertical Cylinder	2-40	80-140	60-110	20-38
	Luffing Cylinder	2-40	90-380	50-160	16-38
	Outrigger Cylinder	2-40	80-250	60-190	20-38
	Bosting Cylinder	2-40	50-120	30-90	20-38

(Customizable according to customer requirements)

**AERIAL WORK
PLATFORM
SERIES**

- High quality imported sealing components and sealing materials are adopted to ensure its stability and reliability under high pressure and high temperature environment
- After high precision grinding and surface treatment, piston rod can withstand a lot of axial load and bending stress, also can effectively resist wear and corrosion
- All key stressed parts are forged with special heat treatment process to ensure that the hydraulic cylinders have the very high service life under high pressure and heavy load conditions
- Working pressure, size, installation can be customized according to customer requirements

**SCISSOR TYPE
HIGH-ALTITUDE
WORK PLATFORMS**

- Supporting Cylinder
- Lifting Cylinder
- Steering Cylinder
- Floating Cylinder

**MAST TYPE AERIAL
WORK PLATFORMS**

- Lifting Cylinder
- Swing Rod Cylinder
- Steering Cylinder

**ARM TYPE AERIAL
WORK PLATFORMS**

- Leveling Cylinder
- Jib Cylinder
- Steering Cylinder
- Luffing Cylinder
- Telescopic Cylinder
- Floating Cylinder

HYDRAULICS:

Leveling
Cylinder

Aerial Work Platform Series	Products	Stroke (mm)	Bore Diameter (mm)	Rod Diameter (mm)	Working Pressure (mpa)
	Outrigger Cylinder	300-800	60-130	45-100	10-25
	Lifting Cylinder	280-2750	55-180	40-150	15-25
	Steering Cylinder	104-300	40-90	30-60	10-20
	Floating Cylinder	60-112	55-90	32-45	15-25

(Customizable according to customer requirements)

AGRICULTURAL
MACHINERY
SERIES

- Professional supporting production of tractors, sprayer, rice conveying machine, corn harvester, harvester, plant protection spraying machine, baling machine and other agricultural machinery full series of hydraulic cylinders
- According to customer requirements

HYDRAULICS:

Header
Cylinder

Unloading
Cylinder

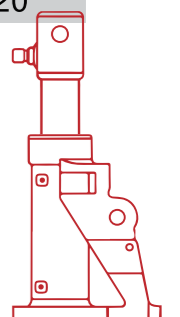

Reel
Cylinder

Pulling
Cylinder

Cylinder

Agricultural Machinery Series	Products	Bore Diameter (mm)	Rod Diameter (mm)	Working Pressure (mpa)
	Rotating Cylinder	50-110	35-60	15-25
	Tilting Cylinder	70-115	40-60	15-25
	Support Plate Lifting Cylinder	30-65	18-45	15-20

(Customizable according to customer requirements)

RICE HARVESTERS

- Reel Cylinder
- Header Cylinder
- Steering Cylinder
- Unloading Cylinder

TRACTORS

- Lifting Cylinder
- Steering Cylinder
- Suspension Cylinder
- Auxiliary Cylinder

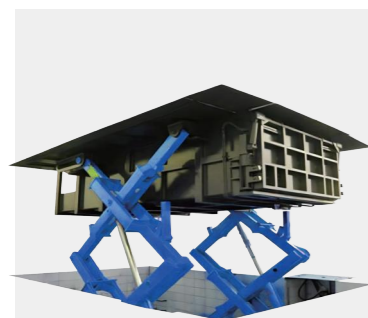

CORN HARVESTERS

- Header Cylinder
- Steering Cylinder
- Variable Speed Cylinder

**SANITATION
MACHINERY
SERIES**

- Reduce failure rate: Adopting more optimized design solutions and mature and reliable sealing solutions to reduce failure rates such as hydraulic cylinders jitter, disorder, abnormal noise, internal and external leakage, permanent deformation, etc., which can improve equipment attendance, and reduce the risk of garbage accumulation during equipment maintenance period
- Application of energy-saving technology: Using advanced hydraulics matching technology, can not only reduce the losses of the hydraulic cylinders and pipelines, but also improve system efficiency and environmental protection

**UNDERGROUND

Sanitation Machinery Series	Locking Cylinder	40-63	22-35	15-30
	Compression Cylinder	100-250	70-180	25-35
	Dumping Cylinder	70-140	45-90	15-25
	Lifting Cylinder	70-125	45-63	20-30
	Pushing Cylinder	100-200	70-80	20-35

(Customizable according to customer requirements)

VEHICLE
LIFT
SERIES

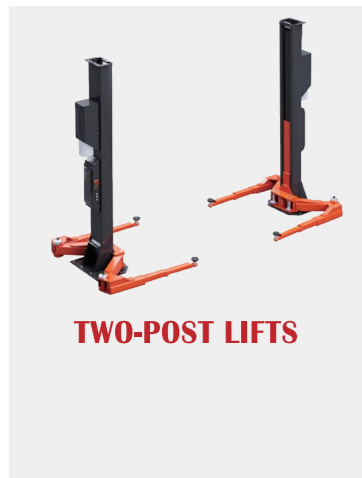

- Jiangxin Hydraulics can support two-post lift, four-post lift, heavy scissor lift, small scissor lift, heavy duty mobile column lift, heavy motorcycle lift and other full series of hydraulic cylinders
- After high precision grinding and surface treatment, the piston rod can withstand a large number of axial loads and bending stresses, and can effectively resist wear and corrosion
- Specially designed sealing system, can meet the harsh working conditions, to ensure that the hydraulic cylinders have excellent dust and sealing performance
- The hydraulic cylinders are installed with explosion-proof valve, when the oil pipe bursts, the lift will stop falling or slow down to ensure the safety of the operator and no damage to the vehicle

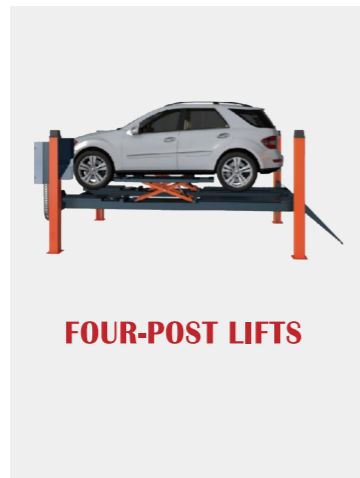

HYDRAULICS:

COMES FROM PERSEVERANCE
PURSUES THE DETAILS

LOYAL TO QUALITY
BRAVE TO INNOVATE

TECHNICAL TEAM

■ Jiangxin takes "technology first, quality first, service first" as the business philosophy, and our technical team continues to provide customers with high standards of products and services

QUALITY TEST

■ Professional quality inspectors strictly control each production link and check product quality layer by layer, which makes customers assured deeply

AFTER-SALES SERVICE

■ With 24/7 dedicated online customer service, Jiangxin guarantees after-sales service at home and abroad
